

# SURGICAL CENTER CLEANING YOU CAN COUNT ON

Specialized terminal care that protects patients, staff, and your reputation

## CLEANING EXPERTISE FOR HIGH-RISK ENVIRONMENTS

In outpatient and ambulatory surgery centers, cleanliness isn't just a standard—it's a safeguard against infection. Total Maintenance Services delivers meticulous, protocol-driven cleaning designed specifically for surgical settings. Our team follows industry best practices for disinfection, surface hygiene, and terminal cleaning, ensuring every room is ready for safe turnover with flexible scheduling, documented processes, and trained specialists. We provide the necessary OSHA certificates and housekeeping book. We provide annual training of staff for a surgical environment.

The best and most thorough cleaning service out there.

**MAREN EPSTEIN, 5-STAR REVIEW**

## THE DIFFERENCE BETWEEN CLEAN AND CLINICALLY CLEAN

### Terminal Cleaning Expertise

Deep disinfection for procedure areas, using defined workflows that remove bioburden, target high-touch surfaces, and support HAI prevention

### Surgical Suite Support

Detail-oriented cleaning for floors, lights, tables, and equipment surfaces to maintain readiness for the next case

### Critical Zone Disinfection

Focused cleaning for pre-op, post-op, clean utility, and dirty utility rooms for safe turnover and consistent hygiene

### Staff & Patient Area Hygiene

Reliable cleaning for nurse stations, exam rooms, waiting areas, restrooms, and labs to create a safer care environment throughout the facility

Protect your patients and meet regulatory expectations. Partner with Total Maintenance Services.
